Dear Reader,

I implore you, do not look for hidden names and phrases in the message above. To do so would be simply too depressing. However, listed below are words to look for should you be brave enough to face the monotony. Monotony is a word which here means “boredom” like the boredom of working in a library and answering the same question over and over again without hearing ‘thank you’ or ‘please’ from rude patrons. Should you be brave enough, I wish you good luck searching for the phrases above. Please take note, however, that while 15 ominous people and things are listed, there are 16 answers in the word search above.
