Tested to be bird-friendly

The Guardian Bird1st UV stripe coating visually signals an impending barrier to birds and helps prevent collisions. With an acceptable Threat Factor score from the American Bird Conservancy, the product follows the 2" x 2" rule to account for different sizes and species of birds.

Helps with performance

Paired with SunGuard® Low-E coatings, Guardian Bird1st UV glass delivers on performance while helping with standards. Bird1st products may meet LEED Pilot Credit 55 and contribute to Toronto Green Standard Bird Collision Deterrence values.

Does FLP want to consider a different color panel to differentiate this from a PPR building/site? Or is the preferer to match colors to Rec Center?

YES, PLEASE PROPOSE OPTIONS

FLP LOGO

Do we want to replace the PPR logo with the FLP logo here?

Should the laser etch on the Black Locust Logo Panel remain as "Philadelphia Parks & Recreation" or should it say "Free Library of Philadelphia"?
